

2023 Alpine Adventures Utah Ski Adventure

Snow Basin and Powder Mountain January 26 - 30, 2023

Join Alpine Adventures as we travel to some of the best snow that Utah has to offer. Powder Mountain and Snow Basin are two under the radar resorts that have some of the finest fresh snow skiing in Utah and maybe the western states. They are off the beaten path and out of the limelight, high prices, and crowds of Park City and Deer Valley. These two resorts offer incredible mountains, vast terrain, helpful employees, great restaurants, no crowds, little or no lift lines, plenty of groomed runs for cruisers, and lots of powder for people who like to go off trail! There is even the opportunity for some fantastic snow cat skiing. Old school resorts with modern facilities that put skiing and customer service first. That's Powder Mountain and Snow Basin.

This is a slightly shorter trip than our normal week long North American trips, but you still get in almost a full five days of skiing. We're staying four nights at the Courtyard by Marriott in Ogden where the ski bus stops right in front of the hotel and takes you to Snow Basin, Powder Mountain and Nordic Valley ski areas. We'll arrive early enough Thursday morning to get in a good day of skiing. And, we'll get a full day in on Monday before leaving for a later flight back to Sacramento. Altogether a good 4 ½ days of skiing for a very reasonable rate.

Advance reservations with a \$300 refundable deposit are available now. Rates and final specifications are expected November 27, 2022.

If you do not have a traveling partner, you can travel solo, or if you wish to share a room we will help place you with another person from the group.
