

2024 Alpine Adventures Utah Ski Adventure

Snow Basin and Powder Mountain January 29 - Feb. 2, 2024

Join Alpine Adventures as we travel to some of the best snow that Utah has to offer. Powder Mountain and Snow Basin are two under the radar resorts that have some of the finest fresh snow skiing in Utah and maybe the western states. They are off the beaten path and out of the limelight, high prices, and crowds that plague the rest of the major Utah ski areas. These two resorts offer incredible mountains, vast terrain, helpful employees, great restaurants, little or no lift lines, plenty of groomed runs for cruisers, and lots of powder for people who like to go off trail! There is even the opportunity for some fantastic snow cat skiing. Old school resorts with modern facilities that put skiing and customer service first. That's Powder Mountain and Snow Basin.

This is a slightly shorter trip than our normal week long North American trips, but you still get in almost a full five days of skiing. We're staying four nights at the Courtyard by Marriott in Ogden where the ski bus stops right in front of the hotel and takes you to Snow Basin, Powder Mountain and Nordic Valley ski areas. We'll arrive early Monday morning to get in a good half day of skiing. And, we'll get a full day in on Friday before leaving for a later flight back to Sacramento. Altogether a good 4 ½ days of skiing for a very reasonable rate.

Reservations are now being accepted.

Please call or email for other departure locations or to modify this tour to meet your needs.

If you do not have a traveling partner, you can travel solo, or if you wish to share a room we will help place you with another person from the group.
